The Australian Air League has been operating since 1934, which means the organisation has almost 80 years of experience in educating and leading the youngsters of Australia. Local squadrons are run by fully trained volunteer youth leaders who are passionate about the role.

Leaders come from a many backgrounds and professions including teachers, engineers, former Air Force officers and trainee pilots. In many squadrons, willing parents get involved as officers or branch committee members who assist with fund raising to support Squadron activities such as flying and gliding. The Air League is truly an 'air-minded' community.

Your children will learn the value of discipline, teamwork and respect with new friends away from school away and the computer. Each Squadron has an active Branch made up of enthusiastic parents.
